**PROBLEM NINETEEN: The Night Watchman:** Frank, a night watchman, was patrolling the grounds of the company he worked for when he discovered a building had just been burglarized. The police investigation ruled Frank out as a suspect in the burglary he had dispatch verifications of times all evening. While describing the events to the police Frank stated: "I had a dream the other night while I was here at work about someone breaking into our building, and sure enough, it all came true today!" Frank's boss, overhearing the conversation, immediately went and made out a final check for Frank, then promptly fired him. Why was he fired?
