### ANALYSIS PROBLEM # 33

Name: \_\_\_\_\_ Period: \_\_\_\_\_ Row: \_\_\_\_\_ Date: \_\_\_\_\_

**PROBLEM THIRTY-THREE: Horse Sense:** Two men planned a vacation into the back country of Montana where they intended to go camping, fishing and hunting. When the date to begin the vacation arrived they proceeded up into the mountains on Friday and spent seven days enjoying the beautiful country and warm weather. They got in plenty of hunting and fishing as well! After spending a week hunting and fishing there, they came back on the same Friday that they left on. How do you explain the fact that they could return on the same Friday?
