ANALYSIS PROBLEM # 7

Name: _____ Period: _____ Row: _____ Date: _____

PROBLEM SEVEN: Pipe Dream: Bob, a homeowner, was told by the city that he had to replace the sewer lines into his house in connecting with the city water and sewer lines. The construction foreman called him at his place of work to inform him that the sewer line excavation would require digging up his cement driveway as it was in line with the sewer route that came from his house. Bob was concerned about the additional expense of replacing his twenty-foot wide driveway. Bob suggested another alternative that would not require his driveway to be torn up that worked wonderfully. It allowed the project to be completed saving him thousands of dollars. What was the suggestion?
