ANALYSIS PROBLEM # 27

Name: _____ Period: _____ Row: _____ Date: _____

PROBLEM TWENTY-SEVEN: Extreme Energy: A man was found deceased in his home when his son returned from a weekend fishing trip. He immediately called the local police who arrived within ten to twelve minutes of the emergency call. The man's wife returned from shopping at the local grocery store an hour later. She was interrogated by the police about comments made to them by her son concerning her insistence that her husband conserve more energy in their living standards. The investigation resulted in her arrest and a charge of criminal homicide. Why was she charged with a crime?
